[Despatch Abstract.]

Textiles- Yarn Distribution Scheme- Selection of Wholesalers for Bellary Dt. - Orders passed-

Copy of D.O. 297/48 dated 5-10-48 from the Collector of Bellary to the Provincial Textile Commissioner, Madras.

My dear Sivaraman,

Sub: Textiles- Mill cloth and yarn- Licensing of wholsale dealers for cloth and yarn- List of selected dealers.

I convened a meeting of the members of Legislature, the Presidents of the Bellary Central Co-operative stores, the chamber of Commerce, the Municipal Chairman, the Deputy Registrar of Co-operative Societies, Bellary, the Commercial Tax Officer, Bellary and the President, Town Congress Committee, Bellary on 1-10-48 and consulted them with regard to the selection of suitable wholesalers for the district. The Dt. Supdt. of Police could not be present on that district for cloth, in view of the subsequent increase in population. It was further agreed that there should be 2 wholesalers at Bellary, Adoni and Hospet and one wholesaler for each of the other taluks, viz., Rayadrug, Siruguppa, Alur, Hadagalli, Harapanahalli and Kudiligi. It was also resolved that Binny and Mettur dealers, a list of sutiable traders selected is appended. These names have been strongly recommended by a majority of the members. It is extremely limited number which is required by the Government. I must at the outset admit that though there is nothing against the people who have been recommended, yet there are a number of equally reliable people who had to be left out. This will creat unnecessary bitterness between the wholesalers on the one hand and between the people who have been thrown out of their employment on the other. I cannot give speicial qualifications for these people whom I have recommended and for those who have not been selected. Of course, people whose dealings have been suspected have been excluded. But in addition a large of other people of very good character and good business reputation had also to be excluded. The local M.L.As. and M.L.C. and other people whom I have consulted were of opeinion that all the wholesalers and retailders who are in business now should be retained. But in view of the government's decsision in the matter to limit the number, a selection had to be made.

It is inevitable that good people who had not been included would come forward with complaints that they have been excluded unnecessarily. I am naturally not in a position to give reasons for excluding all these people.

I append a similar list of persons elected to serve as wholesalers for yarn also. These persons have been considered as suitable by a majority of the members also.

Yours sincerely,
sd. K.N. Anantaraman.
